

ASIA RISK TRANSFER SOLUTIONS ("ARTS")
RELEASES CROP RISK EXPERT SUITE ("CRES") FOR INDIA

SINGAPORE - APRIL 1, 2017

Asia Risk Transfer Solutions ("ARTS") today announced the release of the Crop Risk Expert System ("CRES") for India. CRES is a data analytics platform that significantly enhances pricing processes, performance, and portfolio management for agriculture insurance businesses.

"It has not been easy for insurers to cope with the sudden boom of the agriculture market. With the new Pradhan Mantri Fasal Bima Yojana ("PMFBY") scheme, millions of data must be analysed in extremely short windows. On top of this, they have to be mindful of matters like capital requirements and risk accumulation. With CRES, we have customised a system that meets that requirements of PMFBY and helps insurers overcome all these challenges." said Mr. Toh Rui Jie, Senior Manager of Product Development at ARTS. CRES will be available for a free trial for interested parties during the month of April 2017. To get in touch with us, send an email to info@asiarisktransfer.com.
